

Vanesa Medina

-BACKEND DEVELOPER JAVA-

About me

I am a backend developer with knowledge fullstack. I am looking to take my first steps in the IT world.

I consider myself a person that is motivated to work in a team because I believe that other's point of view is always enriching, although I also like to take challenges autonomously.

Education

NATIONAL UNIVERSITY OF MAR DEL PLATA

University career
August 2019 - Now
In 2nd year.

Computer engineering career.

Among the objectives of the career are to identify, formulate and solve engineering problems as well as to acquire knowledge in various programming languages.

ADA ITW
